SUMMARY

Dedicated Senior Robotics Trainer, STEM Educator, and Soft Skills Trainer with experience in robotics education, electronics, IoT fundamentals, technical mentoring, and communication skills development. Proven ability to deliver hands-on training programs, mentor student projects, and conduct large-scale workshops for school and engineering students across India. Strong background in public speaking, interview preparation, and employability skills training. Currently pursuing higher specialization goals in Robotics and Embedded Systems, with plans to undertake M.Tech studies in Robotics.

EDUCATION

Jawaharlal Nehru Technological University Kakinada

Bachelor of Technology (B.Tech)

Year of Completion: 2022

EXPERIENCE

Senior Robotics Trainer

Care Cubs

- Deliver robotics, electronics, STEM, and IoT-focused training programs for students.
- Conduct hands-on practical sessions involving sensors, actuators, microcontrollers, and automation projects.
- Mentor students in innovation projects, technical competitions, and problem-solving activities.
- Design engaging learning experiences that bridge theoretical concepts with practical implementation.
- Support schools and educational institutions in implementing technology-driven learning programs.

Senior Robotics Trainer

WizKlub

- Conducted robotics, coding, and STEM education sessions for students across various age groups.
- Guided learners in project development using electronics and programming concepts.
- Delivered experiential learning modules focused on creativity, innovation, and design thinking.
- Assessed student performance and provided individualized mentoring support.

Soft Skills, Communication & Interview Skills Trainer

- Conducted employability and career-readiness workshops for B.Tech students across India.
- Delivered training on communication skills, interview preparation, group discussions, leadership, and professional etiquette.
- Helped students improve confidence, presentation abilities, and workplace communication skills.
- Facilitated interactive sessions designed to enhance professional and personal development.

TECHNICAL SKILLS

Robotics & STEM Education

Arduino Programming

Embedded Systems Fundamentals

IoT Concepts & Applications

Electronics & Sensor Integration

Project-Based Learning

Technical Training & Mentoring

Public Speaking & Presentation Skills

Soft Skills Development
Communication Skills Training
Interview Preparation
Student Engagement & Assessment
Curriculum Delivery
Leadership & Team Facilitation
Arduino Uno
Sensor Integration
Actuator Control
Electronics Prototyping
Breadboard Circuit Development
IoT Fundamentals
Embedded C Fundamentals
Basic C/C++
UART
I2C
SPI
Arduino IDE
Tinkercad
Microsoft Office Suite
Google Workspace

CERTIFICATIONS

TESOL (Teaching English to Speakers of Other Languages) — PlanetSpark
Certified in English communication, language instruction, and learner engagement methodologies.

KEY ACHIEVEMENTS

- Trained hundreds of students in robotics, STEM education, and technology-focused learning. - Conducted technical and soft skills workshops for engineering students across India. - Successfully mentored student innovation projects and technical presentations. - Delivered high-impact communication and interview skills training programs. - Recognized for creating engaging, practical, and learner-centered educational experiences.

LANGUAGES

- English - Telugu - Hindi

CAREER OBJECTIVE

To contribute as a Faculty Associate, Robotics Trainer, or STEM Educator by combining technical expertise, practical learning methodologies, and communication excellence to prepare students for future industry challenges while continuing to advance my specialization in Robotics and Embedded Systems.
